Re: DA 12-1863, IB Docket No. 12-340, RM-11683
Public Notices for LightSquared's License Modification Application and Petition

Dear Ms. Dortch:

Recently, we have seen our economy slowly bounce back from the recession. While this is a promising trend, there is still an urgency to reinvigorate our recovery and promote more job creation. I am hopeful that the Commission will show their commitment to our recovery by granting LightSquared's license modification application.

I am a lifelong resident of the Roanoke Valley where this may be helpful for increased job opportunities. I want to see innovation for job creation that will meet the needs of our community. After learning about the proposal LightSquared has put forth, I feel that western Virginia will greatly benefit from their improvements and expansion of broadband infrastructure. LightSquared's efforts to make communication and information easily accessible will be the stimulation we need to help speed up our economic recovery and create jobs to put unemployed Americans back to work.

I urge you to take action and approve LightSquared's application. Our recovery can use a jumpstart and LightSquared's proposal may be the jump we need. Thank you for your consideration in this matter.

Sincerely,

Warren Campbell
